## NOTE FROM VAL

On January 6, 2011, I was intuitively moved to shut down the book publishing side of the house. After 20 years, and so close to the end of our civilization, it was 'time' to take this action and, in the spirit of Matrix 5, focus on observational matters, as reflected in the maintenance of the Leading Edge Research Journal Online website. I would encourage you to subscribe. You will find it to be a most satisfying informational experience, and the best system of its kind on the entire Internet. See our flyer about the online website, or the information about it at [www.trufax.org](http://www.trufax.org) I am sure you will be pleased, if keeping tabs on everything is your desire. Thank you for your patronage.

Val

**Payment Note:** People do all sorts of strange things, even if things are spelled out for them. Because of that, I find myself needing to include this note: Please make sure if you use a check or money order that you make it out to J. Grace, as it says at the top of this form. Do not make it out to anything else; otherwise I will have to send it back to you. If you make a mistake, and I send it back, do NOT cross out one thing and write in another, because then it becomes an 'altered instrument' and the bank will not cash that, either. You have to be smarter than the order form, as the saying goes. Send us a new, correct, check or money order so I can update your account. If you send cash, make sure your envelope can't be seen through. Include it inside something else. We rarely ever see a problem happen because most people use common sense.

Alternative Payment Method Other Than Postal System: Western Union Money Transfer. Send us an email for details: [val\\_valerian@yahoo.com](mailto:val_valerian@yahoo.com)
